Worried about a proposed development? Do you need support?

A developer has lodged a planning permit application in your neighbourhood.

MEG is a local residents' group that assists people in opposing inappropriate development.

We are volunteers who are passionate about protecting the neighbourhood character of Malvern East, and are more than willing to help you with the process of opposing inappropriate development. We belong to a grass-root movement that counts over 250 local action groups in Victoria. Our objective is to ultimately convince Governments to truly protect existing neighbourhoods and the amenity of residents. We want Government to impose stricter controls and limits on development in established neighbourhoods.

To achieve this aim, we actively participate in local Government planning processes, we lobby Councillors and State Government, and monitor the decisions of the Victorian Administrative Appeals Tribunal (VCAT). In so doing, we have gained valuable insights into the planning processes and have the knowledge to assist fellow Malvern East residents in defending their streets against inappropriate development.

Our ultimate aim of convincing Government to curb development excesses in established neighbourhoods can only be achieved if we can demonstrate that our grass roots movement is growing. For this reason, membership is a condition for receiving free advice and support. Membership only costs \$5 per person per annum. Members are not required to volunteer time and effort, although this would of course be greatly appreciated. If you wish to discuss joining our group, please feel free to contact Ann Reid (9572 3205).
